Stanford university will meet on Stan ford field tomorrow in the twenty-first annual football match between the premier intercollegiate athletic event of the Pacific coast. This year California is a 10 to 6 favorite over Stan-ford by the showing made by both

with outside teams.

The two California universities abandoned the American game six years ago when the agitation against ootball as it was then played was a

GOSSIPS FROM OLD LONDON

London, Nov. 11 .- The heavy rains which have broken the exceptional drouth which has prevailed this year in England may have done more damage than good, according to reports made by numerous landlords.

They assert that the long drouth has played the part of a long-sustained earthquake with the heavy rains acting as the final shake. So severe has been the action on many buildings that the repair bills will equal the rental for the next two

The shrinkage of the clay and other subsoils has been so great that in ome places whole streets of houses ave developed threatening cracks drainage systems have been disor-ganized and building inspectors are having the busiest times of their ca-The damage to the London suburbs has been especially severe. There has been a wholesale subsilence in a number of Herdfordshire illages, and some of the finest old iomes in the clay districts of Midlands are threatened with de-struction. Architects and builders at ribute the disturbances solely to the shrinkage of the subsoil, which is much worse on the clay soils which normally hold the most water,

General regret is felt that Dr. Har vey W. Wiley, chief of the bureau of chemistry of the United States de partment of agriculture was not able to accept the invitation of the council of the Pure Food and Health Society of Great Britain to preside at their national congress to be held here next March. Dr. Wiley is well known in England both for his advocacy of pure food laws at home and for his attendance here at numerous congresses held in connection with ap plied chemistry and food adultera

It is hoped, at the coming congress to formulate practical proposals for the standardizing of foodstuffs, for definition of what are legitimate and illegitimate manufacturing proc esses for the proper distribution of food for sale, for the codification of xisting laws, and for the centralization of the work of inspection in the ocal government board.

The society will endeavor to present a strong legislative program to the government, the chief feature of which will seek to correct the abuse alleged to have grown up on account of the food and drug inspectors work-ing only under local authority. So lax have some of the local authorities become that it is said the law is a dead letter in several places.

An age limit and not the length o residence at the college or university from which they register may soon by the rule which will regulate the eligibility of Rhodes scholars for athletic

At present the rule is that no ath lete is qualified to gain the coveted half or full Blue by representing Oxford on the playing field, after he completed four years' residence. Some Rhodes scholars have already completed two or three years at some foreign or colonial university before reaching Oxford and through them inter-Varsity play tends to develop man versu considering this evil the authorities at first thought of ruling that in the future the four-year rule should apply to any university at which the scholars were in attendance, so Rhodes man, who had been in college three years before reaching Oxford would only be eligible for one years play there. Owing to the difficulty of determining what constitutes school of university standing this so lution has been dropped. The plat now most favored is the substitution The plan of an age limit and it is believed that before long a rule will be adopted that no man more than 25 years of age may represent either Oxford Cambridge. This ruling would still give the Rhodes scholars an advantage of two years over the students ma-triculating from United Kingdom

. . . . through his clothing, producing a red mark on his skin. The spot grew darker and eleven days late an ulcer The new submarine cable telephone which the British postoffice is laying between this country and Belgium is said to possess speaking properties appeared which healed in 49 days but has left effects. That was the first example of the destructive power of markedly superior to any now in ex-

Istence Eighteen months ago considerable attention was attracted to the new Anglo-French cable, which was the submarine telephone cable be fitted with what are known tech-nically as "loading" coils. In this ca-ble at intervals of one nautical mile throughout the whole length, there inserted series of four colls, two above each other, the electrical effect of which is to increase the capacity of the cables by anything from 250 to 270 per cent. This cable, which has two circuits, was of an experimental character, and so much doubt having been expressed as to the feasibility of the coils, was designed so that the "loaded" colls could be cut out of use altogether leaving it an ordinary

So successful is it, however that the designers of the new Anglo-Belgian cable have provided that the "loaded" coils must be essential for its use. By doing this it has been possible to reduce the weight of the insulation from 300 to 150 pounds per mile, and as gutta-percha is used exclusively, a considerable saving over the cost of the Anglo-French cable will be made.

They Have White Bands

Peking, Nov. 10 .- The Chinese here are preparing white flags and arm bands. Some of them are sympathizing with the revolution while others are ready to display loyally to either

Reports received from Pao Ting-Fa say that General Tuan, with 2,000 troops of the Third division is moving southward of that city in the

Los Angeles, Cal., Nov. 11.—Eighteen Chinese scholars who have been engaged at the task for thirty years. have completed the Magna Charta of China, according to Ho Lee, president of the Young China society lodge in Los Angeles. It will be promulgated as the constitution of the United Republic of China, she said, just as soon

as the fall of Peking is announced. While republican in form, the gov-ernment proscribed by the savants will be far in advance of that in vogue in the United States or elsewhere Ho Lee declared today, Econimics and the welfare of the were the chief concerns of the con-

stitution makers. Here are two of the features: "Trusts will be prevented by procertain shares of the business in

their particular line. "Every company must pay a scale of ages prescribed by the government." This, Ho Lee said, is a feature particularly attractive to the coolie class-es, who are now held down to the fam-

TELEPHONE CHANGES

Within a few days, work will be gin on the changes which are to be made on the Bell Telephone company's building on Washington ave-nue. The entire building is to be remodeled by the first of January, the time the single telephone system

is to be installed.

W. F. Madson, local manager of the Bell company, states that the plans of the changes to be made in the building will be decided upon by Monday. The entire front of the building is to be changed. The front, while now in the form of an alcove, with the entrance several feet in from the street, will be changed so that the street door will be on the street line. This will give a great deal more space to the front office, which will be fitted out after the

regulation office of a bank. Eight electricians are now at work installing the apparatus necesary for the combining of the Bell and Indeendent telephone switch boards This work should be completed within the next thirty days and there is lit-tle doubt that the Independent telephone will be a thing of the past by January 1

In taking over the Independent ser-vice, it is probably that few if any of the employes of this company will be thrown out of employment. The necessary increase in the number of switch boards at the Bell office will give employment to all of the girls now working for the independent company. In other departments it is likely that the change will necessitate the employment of the persons now working for the defunct company.

TWO STOCK EXCHANGE

NEW YORK, Nov. 10 .- Two stock exchange failures, resulting primarily from the recent advance in the market, were announced today. The insolvent firms are W. L. Stevens & Co and Ball & Whicher.

operation between the farmers' union and trades crafts The election of officers resulted as

President-James B. Tobin, Boston Secretary-Treasurer - Thomas

Tracy, Boston. At the opening session of the metal trades department, which convened this morning, a fight was started on the Taylor system of efficiency in shops. President James O'Connell of the department in his annual address urged that a resolution be drawn condemning the Taylor system and sub-

mitted to the executive council of the

American Federation of Labor for rat-

ification.

Secretary-Treasurer A. J. Burns, in his report, urged the eight-hour federal law governing construction of ships be broadened to include all parts of all ships built by those working under federal rules.

DINNER PARTY

One of the most pleasant social vents of the past week was the six ourse dinner at the Potter Cafe and Orpheum party, Thursday evening in honor of Mr. and Mrs. J. E. Lyon, given by the members of the Signal department of the Oregon Short Line and their friends. That Mr. Lyon's connection with the "Signal Bunch" for the past seven years has been ver satisfactory in overy way was evi-denced by the many expressions of regret at these conections having litey been severed and the searty wishes for the future welfare of Mr. Lyon and his family, who leave in the very near future to make their home in Callfornia.

Vocal and instrumental solos ren dered by Mr. A. R. White and Mrs. B. G. Patenall were very much enjoyed. Those present were Mr. and Mrs. E. W. Newcomb, Mr. and Mrs. J. E. Lyon, Mr. and Mrs. J. R. Wills. Mr. and Mrs. B. G. Patenall, Mr. A. R. White, Mr. and Mrs. G. W. Pagett Mrs. Martha White, Miss Disey cleston, Miss Evelyn Hendershot Miss Mary Young, Mr. and Mrs. G. F. Williams, Mr. and Mrs. W. F. Cor-tez, Mrs. Nellie Fletcher, and Mr. R. A. Hamil.

MARTHA SOCIET.

The next regular meeting of the Martha society will be held with Mrs. H. C. Wood, Monday afternoon, when ports from the various committees will be held and final arrangements for the big annual "Charity ball, which occurs next Wednesday, will be made. The most elaborate arrangements ever undertaken by the Martha society ladies have been made, an enlarged orchestra will furnish a splendid musical program and the New Colonial will be made especially at-

tractive for this occasion. Preparaguests have been made handsome gowns, made pecially for this, the opening event of the dancing season, will probably be n evidence and the most brilliant of ects in every way will mark the 1911 'Charlty' ball.

CHRISTIAN LINK MEETING.

The ladies of the Christian Ling ircle met last Wednesday afternoon with Mrs. S. E. Jost, when the usual attractive features of the Link meetings made the occasion a most onoyable one, although, owing to the illness of some of the members and the inclemency of the weather, the attendance was much smaller than

Vocal duets by Mrs. Bostaph and Mrs. Nies and instrumental and vocal solos by Mrs. Bostaph and Miss Grayce Russell were much appreci ated by the guests and hostess, and the delicious refreshments and charm-ingly informal social hour completed one of the most successful of the Christian Link gatherings

"500" CLUB.

Mrs. Matt Browning entertained very delightfully at the last meeting of the "500" club at her home on Washington avenue, Mrs. T. E. Fitz-gerald won the souvenir spoon and Mrs. Harold Day of Brigham received Delicious first prize and a delightful social hour followed the card games.

Mrs. P. Healy will entertain the

club at its next meeting. SOCIAL BOARD ENTERTAINS

The social given Thursday after noon by the social board of the First Presbyterian church in the church parlors proved to be a most delight-ful occasion. After pleasing diversions refreshments were served.

FRATERNAL AID SOCIAL

The social given by the member of the local Fraternal Aid, No. 884 which was given last Tuesday even ng was among the pleasant events of TOLSTOI CIRCLE.

Mrs. Hattle Miller will entertain the

adies of Tolstoi circle at the hom of Mrs. Elice Edwards, 2874 Wash ington avenue, next Tuesday afte SURPRISE PARTY.

parties of the season was given last Tuesday night in compliment to M. R. Thomas, at his home, 518 Twenty seventh street. Mr. Thomas has for ome time been arranging business
